

I am a very big supporter of K-Love and feel like it provides a positive message to everyone who listens. It provides moral direction, daily encouragement, and great music on a constant basis. With the recent proposal of expanding LPFM broadcast services, I am greatly concerned that this could push K-Love off the air. I am not familiar with the proceeding of such actions but would like to request that you consider those of us who depend on K-Love and their message.

Thank you so much for your time!
